DD/P persons who could be helpful on possible ORR wartime relationships with both FI and operational field units.

Purpose of the Contact

For the purpose of reviewing their holdings of vital material, their plans for staffing their emergency center and for the purpose of ascertaining the nature of the wartime organization in their relationship to the possible wartime functions of the Geographic Research Area, ORR.

To determine possible requirements for support from the Geographic Area.

We have not yet been advised of GEM's plans to consider possible wartime activities in the field of economic warfare. We presume, however, that GEM will ask for an ORR representative to participate in an exercise somewhat along the lines of that undertaken in Operation Alert 1956.

While we are not yet prepared to engage in intensive conversations with DD/P representatives on the subject of possible ORR wartime relationships with components of this area, there are a number of general questions which we would like to discuss with their representatives regarding their expectations of ORR support and the support they might be able to provide to ORR in wartime.
